

BAR GRAPHS

The picture graph below shows the number of people who like each type of movies.

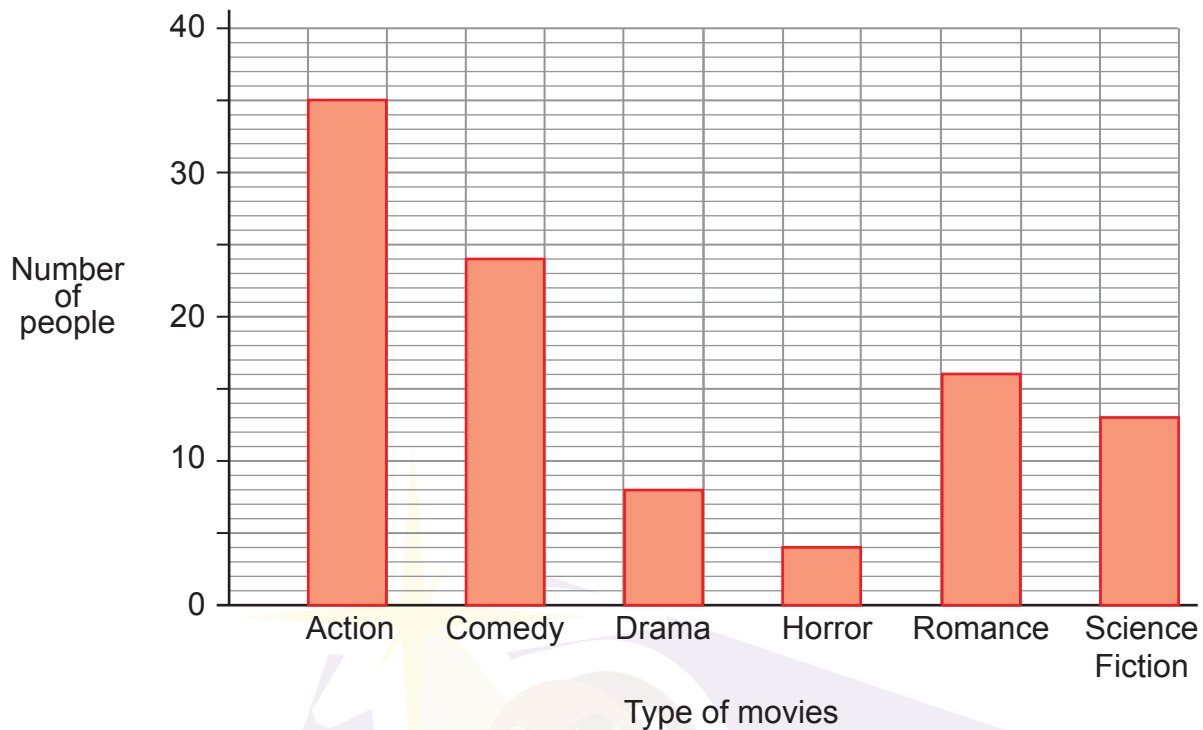

Use the information above to complete the bar graph.

1. What is the most popular type of movie?
2. What is the least popular type of movie?
3. How many more people prefer Action to Romance?
4. There are as many people who like _____ as there are who like _____ and _____ combined.
5. How many people are there altogether?

- Action (35 people)**
- Horror (4 people)**
- $35 - 16 = 19$ more people**
- There are as many people who like Comedy as there are who like Drama and Romance combined.
- $35 + 24 + 8 + 4 + 16 + 13 = 100$ people**
