

## *An Enjoyable Walk in the Park*

I go to the park with my grandfather every Sunday evening. We always go to the small aviary at the end of the park as we like to see the birds.

After that, we walk to the pond to look at the fish. Along the way, we see many interesting plants. They have many different types of leaves. They also have colourful flowers. My grandfather knows the names of all the flowers. Sometimes, we stop to take a closer look at the flowers.

On the other side, there are usually people playing Frisbee with their dogs. My grandfather and I like to watch them play. The dogs are very good. We go home when it is dinnertime.
