

Model Composition 3 – Visiting a Classmate in the Hospital

Gary is at the hospital. He is visiting his classmate, Linda. She met with an accident a few days ago.

When Gary entered the ward, he saw Linda lying in bed. She had a cast on her leg and her arm was bandaged. Linda could not get up but she looked cheerful. She was reading a book. When she saw Gary, she smiled and waved at him. She was glad to see him. Gary gave her a bouquet of flowers and some magazines. He also gave her a card. Everyone in the class had signed it. Linda was delighted. Gary and Linda talked for a long time. He told her everything that had happened in school since she was absent.

Gary wished Linda a speedy recovery before he left. Everyone in the class missed her. Linda promised to be back in school as soon as she could.
