

My Best Friend, Thomas

Thomas is my best friend. He is also my neighbour. We like to do things together after school.

Thomas likes to do origami. He can fold animals like dogs, giraffes and whales. He teaches me how to make them. He can also make flowers, tables and chairs. Thomas is very good at folding cranes. He can fold one hundred cranes in an hour. He puts all his cranes in a glass container.

Thomas likes to buy different types of coloured paper to do origami. He buys the plain ones, patterned ones and even glossy ones. He also buys coloured paper of different sizes.

Thomas folds something different for me every day. I have a huge box filled with the things he has folded. Thomas is certainly very creative.
