

My Favourite Toy

My favourite toy is a talking doll. My uncle gave it to me on my fifth birthday.

The doll wears a pink dress and white shoes. Its eyes can open and close. When I press its left hand, it will record what I say. When I press its right hand, it will repeat what I have said. When it talks, its mouth will open and close, just like a real girl.

I think the doll is adorable. I take care of it just like how my mother takes care of my little brother.
