

Reading 1 — Making My Own Necklace

On Christmas, my aunt gave me a craft set for making necklaces. I decided to try to make my first necklace.

There was a string inside the box. There were also a lot of colourful beads. I followed the step-by-step instructions to make my first necklace. I started by tying a knot at one end of the string. Then I put the colourful beads through. Some of them were big but some were small. I liked the small transparent ones. They were so pretty. There was also a bright red bead that was shaped like a star. I put it in the middle of my necklace. When I was done, I tied a lock to both ends of the string. I wore the necklace immediately. The necklace was beautiful!

There were still some beads left in the box. I decided to make a bracelet with them to match my necklace.
