

Reading 2 — My First Aeroplane Ride

My parents took me to Hong Kong when I was eight years old. It was the first time I had taken an aeroplane.

I was excited about the aeroplane ride but I was frightened as well. My parents and I boarded the aeroplane. A stewardess showed us to our seats. I fastened my seat belt and waited excitedly for the aeroplane to take off. The aeroplane finally took off. When it was in the air, I looked out of the window. I was delighted to see the white clouds just outside the window. Before long, it was time for lunch. I had a special children's meal. It was delicious. After lunch, the stewardess gave me a box of crayons and a colouring book.

The aeroplane soon landed in Hong Kong. I had an enjoyable aeroplane ride. I looked forward to the ride home after my holiday.
