

Strategy for Finding 20% of Any Numbers

Example

Find 20% of 630.

Solution:

$$630 \div 5 = 126 \quad [\text{divide the number by } 5]$$

$$20\% \text{ of } 630 = 126$$

Do these sums mentally.

1 20% of 150 =

2 20% of 830 =

3 20% of 945 =

4 20% of 425 =

5 20% of 535 =

6 20% of 655 =

7 20% of 386 =

8 20% of 763 =

9 20% of 295 =

10 20% of 1050 =

6 131
1 30
7 77.2
2 166
8 152.6
3 189
9 59
4 85
10 210
5 107
